### About IIPHS:

The Indian Institute of Public Health Shillong (IIPH-Shillong) is a Northeast regional institute of public health. It was established in 2015 by the PHFI in collaboration with the Government of Meghalaya to redress the limited institutional and systems capacity in public health in the North East Region of India. IIPH-Shillong is an autonomous educational & research institute of the IIPH Shillong Society, registered under the Meghalaya Society registration Act of 1983.

### Project Title and Brief:

**“NIHR Global Health Research Unit on Health Financing for UHC in Challenging Times: Leaving No-one Behind”**

This project is funded by the National Institute of Health and Care Research (NIHR) and conducted by the Institute of Economic Growth (IEG) in collaboration with the Indian Institute of Public Health Shillong (IIPHS). This survey will seek to understand the treatment seeking behaviour of the population vis-à-vis choice of providers, perceived quality of providers, and cover the provider’s aspect of treatment provision.

In the context of India’s rollout of Universal Health Coverage, the results of the survey would provide important inputs into policymaking for the Government of Meghalaya.

### Qualifications and Experience:

#### Essential

- Graduate in any discipline from a recognized university/institute.
- Written and oral fluency in local language (Khasi/Garo) and English.
- Proven experience in conducting surveys/interviews, FGDs, field research and data collection in health projects, specifically in contact with the doctors and other health professionals.
- Excellent communication skills, both written and verbal.
- 2 years proven experience in conducting surveys/interviews, FGDs, field research and data collection.

#### Desirable

- Bachelor’s/master’s degree in public health, Social work, or allied health discipline.
- Proficiency in using electronic data collection tools and software platforms.

- Ability to work independently in field settings, demonstrating resilience, adaptability, and problem-solving skills.
- Should be able to communicate field challenges and other issues clearly.
- Experience of conducting surveys/interviews in **health projects**.

### **Roles and Responsibilities:**

- a) Conduct field surveys and interviews in the sampled healthcare facilities and communities following established research protocols and methodologies.
- b) Assist in the development and translation of interview schedules into the local language.
- c) Travel to field sites to collect and record data appropriate to the project's specific objectives.
- d) Coordinate survey logistics, including scheduling, mapping out survey locations, and managing transportation arrangements.
- e) Monitor and troubleshoot survey implementation issues, promptly addressing any challenges or deviations from the research protocol.
- f) Review and edit data to ensure completeness and accuracy of information; follow up with subjects to resolve problems or clarify data collected.
- g) Provide regular progress updates and participate in team meetings to discuss survey outcomes, challenges, and potential modifications to the research approach.
- h) Performs miscellaneous job-related duties as assigned.
