

No: IIPHS/2021/Ads/1/54/32

Date: 26<sup>th</sup> April 2023

**Position:** Project Technical Officer (Statistician)

**Location:** Shillong, Meghalaya

**Number of Posts:** 1 (One)

**Duration of position:** One year (renewable based on performance)

### About IIPHS:

The Indian Institute of Public Health Shillong (IIPHS) is a northeast regional institute of public health. It was established in 2015 by the Public Health Foundation of India in collaboration with the Government of Meghalaya to redress the limited institutional and systems capacity in public health in the North East Region of India. IIPHS mandates include research interdisciplinary education and advocacy.

### Project Brief:

The IIPHS is implementing the project entitled 'Effectiveness of Self-Help Groups for Breast and tobacco-related cancer prevention in Meghalaya: A Quasi-Experimental Study funded by the Indian Council of Medical Research (ICMR). The project aims to develop and test the efficacy of a cancer-prevention intervention based on the Health Belief Model in the community using a bottom-up approach. The work will include regular interaction with local government officials, women from self-help groups (SHGs), and other local stakeholders and community members.

### Roles and Responsibilities:

1. Creating and managing databases to store specialized information, data, and content
2. Manage all incoming data and individual information
3. Review data for inconsistencies or anomalies that could skew analytical results
4. Maintain database and conduct routine maintenance as needed to ensure data integrity
5. Streamline data collection and analysis procedures to ensure fast access
6. Communicate with the project manager about data changes or requirements
7. Compile and analyse data at various stages of the study
8. To contribute to the writing and publication of high-quality papers in peer-reviewed literature and the dissemination of research findings
9. Attend and contribute to research project meetings and discussions
10. Any other work-related tasks assigned by the investigators of the project

### Qualification:

Masters in Biostatistics, Statistics, Computer Application, health management, health administration, public health, or similar background

**Essential:** Exposure and ability to handle quantitative data and its analysis.

### **Desirable**

Prior experience of working with Microsoft Excel, Microsoft Access, SQL or Statistical software's (SPSS/STATA/R). In addition, working with creating databases, or performing statistical analysis, experience of working in clinical trials would be an added advantage.

Experience: 3 to 5 years of experience in community and research projects

### **General Instructions:**

1. The Institute reserves the right to withdraw any advertised post at any time without giving any reason.
